REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The closest prior art of record fails to teach or suggest the recited composite pavement marking. Independent claim 1 identifies the uniquely distinct features of a composite pavement marking that include "a unitary retroreflective article attached to the first portion of pavement parking" with "a second portion surrounding the first portion on at least two opposing sides, wherein the second portion comprises a second portion height above the bottom of the pavement marking that is different than the first portion height". Independent claim 15 identifies the uniquely distinct features of "a plurality of discrete first portions surround by a second portion, each of the plurality of first portions comprising a discrete unitary retroreflective article attached

thereto". Independent claim 23 identifies the uniquely distinct feature of the first portion extending along substantially all of the marking length. The closest prior art of record, Eigenmann (USPN 4,129,673) in view of Wyckoff (USPN 5,108,218), disclose surface marking tape with retroreflective material on the surface, which either singularly or in combination, fail to anticipate or render obvious the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
